BOUNDLESS SPIRIT

of creativity blossoms in her dual role of photographer and model. After having cut her teeth for several years acting exclusively as the subject before the camera, Cyndi crossed over in 2011 to fulfill an ambition to become a self taught photographer—an aspiration which has been validated by numerous photography awards and publication of her personal work in several magazines, catalogs, books, and close to a dozen calendars.

Hardly one to shy away from a challenge or to limit her diverse portfolio of self-expression and achievements, Cyndi has won a handful of international music awards, earned a black belt in Taekwondo, and designs her own artwork, makeup, and jewelry.

A COUPLE OF MONTHS LATER, she had 3 designs completed, manufactured and ready to be shown to the world.

JAMISON SKY

Her Nana said to her...
"You should do art through the computer"

"DESIGNING CLOTHES IN THE COMPUTER" HER NANA SAID.

She started to learn everything she needed to know about bikinis – the different colors, the different materials, the different textures. A couple of months later, she had 3 designs completed, manufactured and ready to be shown to the world. Thanks to her talented and supportive friends, they were

able to do the photo shoot at Clontarf Brisbane, Queensland Australia...in the middle of winter..... at 4 degrees Celsius.... After thanking her friends that she couldn't have done this without their talent, understanding and commitment and for helping her create her vision, she registered her business and SilentEarth Clothing Co was officially launched. She quickly followed with

a Website, a Facebook Page, an Instagram and Twitter account and a Youtube clip... And she hasn't looked back. As she states "I love owning a business. I love owning a clothing line and I love my job. I love every aspect of it. It's exciting, it's thrilling, it's creative, it's stressful, it's expensive, it's time-consuming, it's exhausting, it's my life...and I wouldn't change it for anything".

CRIS JAYE

Currently studying psychology & health promotions at Coastal Carolina University.

MY STATUS is a newcomer but my motivation is the same old story. My name is Cris Jaye and I've just started to follow my passion. Whether it's puckering up for the cameras or posting a smile I'm all in. I enjoy every minute in the light and enjoy being myself. I'm currently studying psychology and health promotions at Coastal Carolina University. However I make plenty of time for the camera. I was introduced to modeling through my sister who was playing around with photography and

wanted to test her skills on me. So we did a test shoot and I fell in love instantly! Although I wish my love life was just as easy, it's not! I'm currently in limbo when comes to juggling my love life, modeling, and the books. Whew! So modeling is like a vacation from my real life. But it wasn't always so simple. I almost stopped modeling after my second shoot. I remember being so nervous yet excited. So when I got a copy of the final edited photos, my mouth dropped. "wow who is that?"

AMELIA MALTEPE

a beautiful 23 years old model. Born and grew up in Bangladesh. She finished her high school there, before moving to Toronto, Canada in 2009 on a student visa for Business Accounting at the University of Toronto.

ON THE BEAUTIFUL Gold Coast in Australia. I have been photographing bikini models for about 2 years now and I have fallen in love with this style of work, the amount of beaches and beautiful locations we have here is amazing and the amount of beautiful and friendly models we have here

blows me away every time I do a shoot. I am a dad, a husband and a photographer am 44 years old and very passionate about getting that perfect shot everytime I take the camera out, I hope this shows in my work. I usually find myself in the water with the models getting wet and sandy too , it

makes for a fun day. Even funnier when a group of tourists walks past and catches me in the posed positions I am trying to show the models, next thing you know the cameras are out and we are the main attraction for them, that why I love the gold coast, anything happens here.

two days before Christmas my beautiful Mom lost her year long battle with Breast Cancer she was 35 years old.

MARIANNE BETTANO

At 42 years old I began modeling 2 years ago, at that time it was an item on my "bucket list" and now it's my PASSION!

When I was 12 years old, two days before Christmas my beautiful Mom lost her year long battle with Breast Cancer she was 35 years old. My brother Christopher and I were living in Milwaukee Wisconsin with my mother and Step Father. Christopher and I were allowed to pack, what we could in 1 small suitcase each of the lives we had lived up to that point. We were told by our Step Father that we would get any pictures or personal effects at a later date that never came... I believe to this day that's where my love for photo-

graphs came in to play.

We moved back to Boston with our Dad. He was and still is my inspiration for modeling. Shortly after my brother and I went to live with my Dad we found out he was very sick. He was only 39 and didn't have much time if the treatments he was receiving didn't work. He decided to have a big 40th birthday celebration in a castle and invited everyone special to him knowing that things probably wouldn't get better. He wanted his invitations to be unique, so he did a photo shoot and used one of the photos for his invitations. He was such a handsome man... His images were even published! This party was going to be so special, the men all wore tuxedos and the women were dressed in the most beautiful dresses. My Dad bought me my first pair of heels for that party. I was 13 and 6'1

with those shoes on. One of the guests at his party was the photographer from Florida that did his shoot. He told my Dad that he had to get me to his studio in Florida to shoot. He said I was "perfect for modeling" I can't tell you how amazing I felt when he said that. When I looked at myself I thought I was tall and gangly and nothing special at all. Not to mention.. so shy! That was a great night for me, just to think someone thought I could be a model! My father took me to a modeling agency in Boston after getting me a complete makeover and we went for a consultation. They said to come back again after my braces are off in a few months and we would get some test shots taken. Unfortunately, my Dad didn't have a few months. He passed away when I was 15 years old, he was only 41. That's where it ended... and what I thought was a nightmare began. I never thought about modeling after that, I had so much more to worry about, I NEEDED to make my

parents in heaven proud and finish school. I moved out on my own at 16 and met my husband when I was 19. I was married at 23 and had a beautiful son I named Salvatore (named after my Dad) in 1997 and had another beautiful boy Anthony in 1999. Family was on my mind.. making memories and photographing it ALL And that's what I did.

When I was 38 I was told by my doctor that I should be tested for the Gene that causes pre menopausal breast cancer. The doctor said that the chances were slim but since my Mom died so young I needed to get tested to at least rule it out. I was tested and the tests confirmed I have the BRCA1 Gene. I was 38 and

had some serious decisions to make to save my life. I couldn't leave my children Motherless. I did everything that I could to reduce my chances and I'm very proactive to this day and receive regular Mamograms and MRI's. I am Breast Cancer free!

After realizing my mortality I also realized I had been so busy just getting by my whole life that I had things I wanted to do.. even at least just once! Modeling was one of those things. I was going to only do ONE shoot... I couldn't believe I could look like that!?! and that's where it all came full circle for me and I discovered what it's like to TRULY LOVE WHAT YOU DO. It really is never too late to fulfill your DREAMS!

I DON'T LIKE
swimming in water where I
can't see the bottom or what
I am surrounded by..not sure
why but I have that fear that
something is going to get
my toes!

MODELING WAS MY ESCAPE

Grew up with brothers so being
girly wasn't really an option for me...bike
riding, climbing trees, building forts..
these were the things i did..as I got ol-
der I got in to the car thing..I love cars.

I started modelling when I was about 15 yrs old just for the fun of
it and it has continued to be for that reason. I don't aim to be rich
or famous, i do it because I love it..because it's a passion of mine. I
have always loved fashion and photography and what girl would not
enjoy playing dress up? LOL. Grew up with brothers so being girly
wasn't really an option for me...bike riding, climbing trees, building forts..
these were the things i did..as I got older I got in to the car thing..I love cars.
My modelling was my escape to all things feminine and really helped me
get in touch with my love for beauty and fashion. Now I get to enjoy both.
Rare to see a model so heavily tattooed modelling bikinis? Yes! But I say
why not? I like to keep my portfolio as diverse as possible so that I am not
closing doors on opportunities that arise. I also love the beach so modelling
in bikinis is perfect as I get to be in one of my fave spots during the shoot!

SMALL TOWN GIRL
that loves everything
about the country but
I love to visit the city.

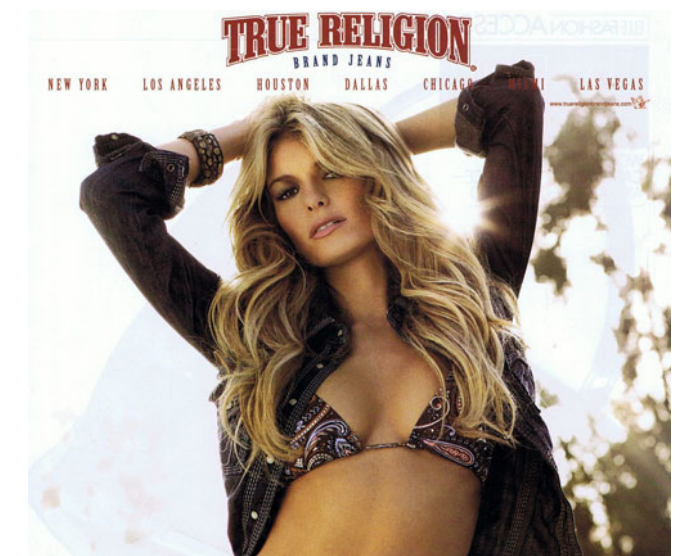

Small town girl that loves everything about the country
but I love to visit the city as well. Visit being the key
word..I would not be able to live in a big city! It's just
too much for me. I like the peace and quiet and would
much rather wake up to the sounds of birds and waves
in the morning than honking horns and crazy traffic.Christmas is
my fave holiday..I start watching Christmas movies like a month
before the actual holiday haha..like a little kid in a candy store.

What many people don't know about me: I
don't like swimming in water where I can't
see the bottom or what I am surrounded by..
not sure why but I have that fear that some-
thing is going to get my toes! LOL A big chick-
en I know.. What do I say to people that don't like my tattoos?
I say "that's your opinion and I respect it and you are entitled
to it". Everyone has their own likes and dislikes...clothing, hair,
style, tattoos, food...I get my tattoos for me, not for anyone
else...and I love them all as they are all a piece of my heart!

SUZY MONTY

I can categorically say that at 62 it is very uplifting to be told repeatedly that I do not look my age. No Hormone Replacement Therapy or plastic surgery for me either.

She does everything from Couture fashion modeling, editorial fashion, commercial modeling to light glamour, pin-up, and finally very tasteful Art Nude modeling. BUT, she would NEVER do Adult! It's a long, long list of what she has actually achieved in the world of modeling, but she has to say that some of the campaigns she did in the past for top companies, don't even exist now! she modeled for a complete variety of interesting assignments, from thermal undies through to being hired by a huge,

national building supplies company, dressed as a 'She' devil for their printed publicity campaign, right up to high end work promoting Rolls Royce cars wearing glamorous evening clothes... ALSO along the modeling way, she has been published in lots of various magazines & newspapers as well as being a cover girl.

Her very first professional shoot in her 20's was to be published in Weekend Magazine, So since then she has been in amongst

Kevin Hicks

others, Woman's Magazine, Closer Magazine, Woman's Own and many other International magazines too. Even her Shaker style kitchen has appeared in Country Homes & Interiors! She has had a taste of TV & radio work as well. Take A Break magazine did a whole one page feature on her when she re-launched at 57. They called her Cornwall's NEXT TOP MODEL!

SHERRYSTANG GIRL

When Sherry Stang Girl is not modeling, she's busy taking care of her home as a home maker. Sherry Stang Girl is always cooking, cleaning or doing laundry! But she says she can't complain because she loves it! Sherry Stang Girl's hobbies include horse back riding, working out, and cooking up new recipes. Many people don't know that Sherry Stang Girl is actually a very accom-

plished horse back rider. Sherry Stang Girl has competed all over and was young rider champion of the year for the Buffalo, NY area. I guess you could say she puts her all into everything she does! Sherry Stang Girl works very hard towards her dreams and goals in life, and she encourages every one to do the same!

SHERRY STANG Girl is a published pin up, eye candy and glamour model from the suburbs of Buffalo, NY. Yes, home of the chicken wings, Buffalo Sabres, and Buffalo Bills!

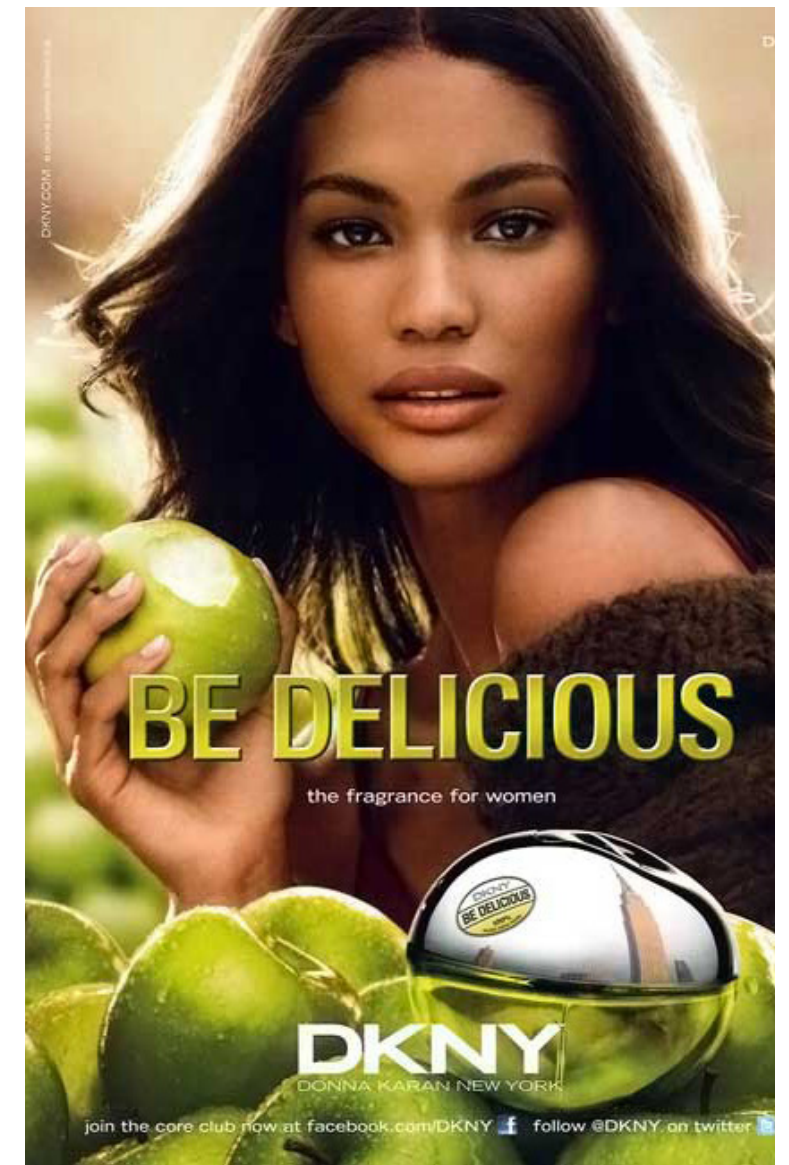

Sherry Stang Girl's modeling career started in 2007. Did she ever think she would be a model? Not really! Sherry Stang Girl always says that she was "discovered!" T1 motorsport was the first to approach her back in the Myspace days. T1 motorsport was having an online glamour modeling contest. Sherry

Stang Girl really wasn't sure at first if she wanted to enter. After thinking about the competition for a day or so she thought "Why not?" Sherry Stang Girl entered a few of her pictures and ended up winning against some great competition! From then on, she started to set up photo shoots and build her portfolio. After a while she started to submit to magazines and online modeling features. Sherry Stang Girl has been fortunate enough to be featured in over 25 magazines since then!

Sherry Stang Girl is thankful for the great people she has met through the years. Sherry Stang Girl has had the opportunity to work with some talented photographers, makeup artists, and hair stylists.

How Sherry Stang Girl got her modeling name: Sherry Stang Girl has always been into the muscle car scene. Since she has always had a mustang, people started to call her Sherry Stang. All she did was add the girl at the end and it turned out to be Sherry Stang Girl.

Let me introduce myself, My name is Jessy Erinn born June 29th 1994 in Ajax Ontario Canada. Listening to their vision and picking out pieces that help transcend that into reality has always been a pleasure. I get the same pleasure designing swimwear for my clients and watching their faces light up when they look into the mirror. This feeling has inspired me, to pursue swimwear design on a whole new level. I designed 15 haute pieces that I felt were deserving

of the runway. This collection became known as the Athena Kollection! It is signature by the warm color palette of cremes and gold, giving an elegant as well as sexy appeal for our knaughty chix! It was recently featured in Fashion Week of Las Vegas 2013! I'm really excited for summer and the future of Knaughty Kouture! We have a number of other products that will be on our site @www.knaughty-kouture.com! Let Knaughty, kouture this Summer 2014!

I have always been an artsey creative person

BORN in Bensonhurst Brooklyn and I am Italian, Sicilian and Norwegian. I started modeling a few years ago after doing a photoshoot for a private-party bartending site that I actually never followed thru with. I loved the photos that I had done so everything just started from there. I have always been an artsey creative person so modeling, doing make-up and styling my shoots it allows me to express myself. Aside from modeling I bartend in New York City and I am attending college majoring in communications
