# ELLE MANNING

Elle Manning was born in Thailand in a small farming village until moving to Bangkok at the age of 18. She did not immediately go into modeling after her move but worked in a factory with her cousin. However Elle knew she was meant for more than just factory work and began to model and gained employment as a product ambassador.

She met an American from the state of Tennessee and was wed to him. While expecting her first child, Elle modeled in her home country and continued her marketing career. Finally Elle received her Visa and moved to Tennessee with her husband and two children in early 2015. She landed a hostess position at a local Hooters but the world of modeling still beckoned. Getting back in was easy and has worked with several photographers in East Tennessee doing swimsuit shoots, fashion, and Advent Garde sessions. She has worked with designer Erin Fowler and Charlotte Couture for their 2015 swimwear line.

# ASHLEY RENEE

Hi there, my name is Ashley Renee and here is a little bit about me. I'm a hometown Illinois girl who grew up near the Chicago area. As a child living in a split home environment, I've had many places that I've called home. As some of you can relate, this was not an easy childhood. That being said, I made the best of it and it has made me who I am today. Growing up I had a love for horses and found myself loving the outdoors. As far back as I can remember, I have always had that little girl desire to be beautiful and catch a glimpse of glamour. Now as a young 21 year old aspiring model, my passion is stronger than ever, however my goal in achieving this has changed. If there was one message or even one person that could truly hear my voice, it would say that no matter what or where you've come from, all things are possible and that one's true beauty comes from within! God has blessed me with amazing opportunities, has given me true love from a wonderful man, and most of all has shown me that one's dim past can be brightened by a beautiful future. Currently living in South Florida, i enjoy sunny days, sand between my toes, and long walks on the beach holding my best friends hand! Florida has truly brightened my day and has shed its magnificent light on my future! Thank you for allowing me to share a small part of myself with you and what I anticipate to be a wonderful journey! Stay Fabulous!!!

# KRISTA GALE

I grew up in a small town with a big dream. A dream that seemed unreachable for a short awkward little girl. I was put into a few beauty pageants when I was young. Surprise, I never won. I never had much self esteem. But I never wanted to give up my dream, so I convinced my parents to put me into a modelling class. This

class taught me alot about walking, strutting and posing. The best part was at the end of the whole class I was told that you need to be at least 5'10 or taller to be a model. Well, didn't that just burst my bubble. So I put my dream on hold for a while. Went through highschool, college and moved all the way to British Columbia for fun. Met a guy, it turned into a thing. Told him my dream, and he suggested

I continue to pursue it. With little to no experience I joined a model website called model mayhem. Found a few local photographers, and started to actually do real modelling gigs. Soon after I conjured up even more courage and decided to submit myself into a bikini contest. Wow, was I ever nervous. But never the less I did it. Not to long after I had discovered I was pregnant. Sure enough first

thing that ran through my mind was, "how long will my dreams be put on hold for now?" We then decided to move back to Ontario. I then gave birth to my beautiful son, and thought to myself, "if I can give birth, I can do anything if I set my mind to it." So I got up off the couch, worked hard and started searching for local photographers. Found a few, did some shoots and now here I am. Never give up hope!

# MarleighNorris

I'm a 23 year old model from Pickering Ontario. Ive been into modeling since I did a training course with Sutherland Models in 2013. I will be going to school in September and be taking a business course but I'm hope to take up Fashion and/ or Photograpy in the future. I love researching all the new fashion/ looks arising. It makes for great ideas for shoots.

I love this industry because you get to meet so many great people from all over & try different crazy things. I enjoy doing photoshoots because your always learning and it's always a great time. I look forward to doing many more!!!

# Paradise Rodriguez

*Kenny Roland*  
PHOTOGRAPHY

Paradise Rodriguez is an Actress, Brand Ambassador, Dancer and Model. She has been featured in movies like "Ride Along 2" and t.v. shows such as Vampire Diaries. She represents international brands such as Triple Rock Vodka. She has danced for festivals, nightclubs and t.v. shows such as Hindsight. Paradise is also a professional model, who has been published both nationally and internationally as well as a runway model. When describing this young lady of 23 years of age, many would use terms like "Driven", "Ambitious" and "Inspirational". Besides her full time career, Paradise Rodriguez runs a non-profit, "Catch A Falling Star", geared to help couples of all ages and sorts find their spark again, as well as assisting peers of all ages to find their love within themselves. She is currently working on launching another non-profit aimed to help abused children have a safe place to go to for help.

Paradise is what you would call multi-talented. While she enjoys the fashion industry and helping others, Paradise also loves to cook, she makes a killer gourmet 3-meat spaghetti. Word around is that she has the BEST spaghetti that will give momma's a run for her money. Paradise also enjoys almost anything active. That ranges from horse back riding, kick boxing, archery and racing. Having been born in "Motor City" Detroit, Michigan, she has always had a liking for fast and classic cars. She is currently working with her brother on rebuilding a Lotus Elise (right hand drive).

Paradise leads quite an interesting life and loves to go on adventures, though it's

not always an easy task for her. You'd think her having gone through having ovarian cancer and her heart condition would slow her down, but not this one. Paradise refuses to give up on the things she loves and her dreams. While she has had to make a few changes to her life, she enjoys it to the fullest. Paradise says, "One must lead a balanced life. You cannot be afraid to be apart of the world just because you are sick. Most of my health problems are completely out of my control, but I

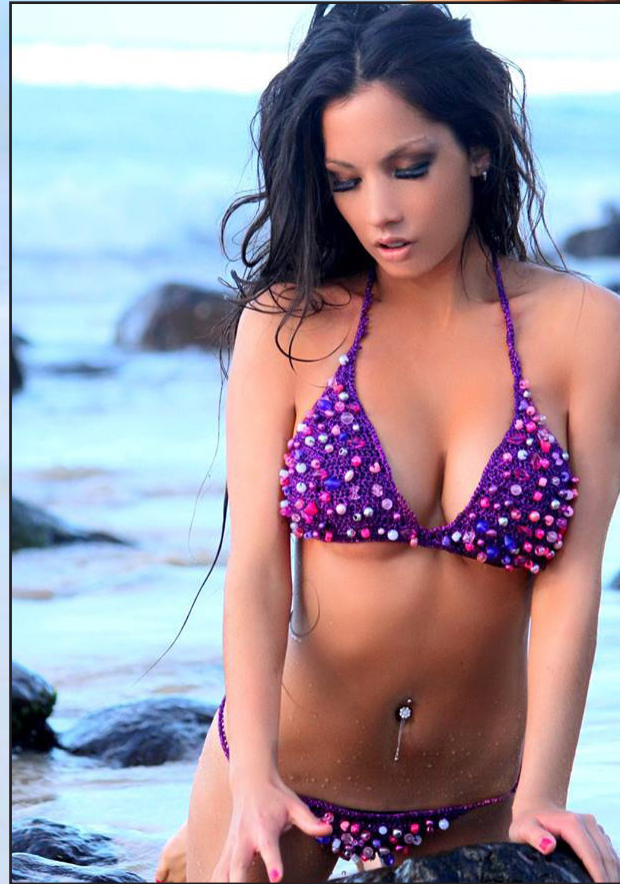

CAN control how I handle those issues. I am sure to eat healthy often, but I do enjoy my favorite BBQ and snacks. Little changes have made a difference in my world. I changed all of my water to Alkaline water. I have substituted all lettuce for fresh spinach and I keep myself fit. Above all things the most important thing is to be heart healthy. I tell people you must stop just surviving and start living, we only have this one life...ENJOY IT."

When asked if she had any advice for others who may follow her, Paradise gave one of her quotes that she came up with and a quote she very much lives by, "You can sit in the corner and cry or you can go out and dance in the rain. Either way the storm is coming". Paradise has unfailing faith and believes in anyone who believes in themselves. Her two biggest goals are 1- to follow her dreams to their absolute fullest. She refuses to choose between her passions. She intends to remain successful in them all and 2- inspire others to never ever give up on what their hearts desire and of course be heart healthy.

## Mariana Alencar

Mariana Alencar is a Brazilian theatre actress/singer/model. She sees herself as an artist since little kid. "I used to perform scenes and choreographies for my family. I remember creating my costume, make up and the mis-en-scene". By the age of 16 she went to studio for the first time with her heavy metal band. "It was super exciting but I was so nervous. I lost my voice when I had to sing". After years of stage experience, shows and play productions she decided to move to LA to improve her skills as an artist. She went to Stella Adler Academy of Acting. "I gained so much confidence while I was there. My best work was playing Nurse Ratched in One Flew Over the Cuckoos Nest. That was as remarkable to me as when I played Shakespeare's Titania".

Mariana Alencar or Marianne, as she prefers to be called, is also doing modeling here in LA. She's done music videos and competing in bikini competitions which led her to get the first place for Kandishop Bikinis by Spearmint Rhino. "I never imagined myself working as a model and being in beauty contests but it's happening and I'm just following the path. # Jennifer

Jen Wilke has a bright future as a glamor model, having landed covers of FHM and Maxim as well as spreads in multiple versions of these magazines. Her photos have been featured in Esquire, DSS, Summum, Uno, Lifestyle For Men, and more recently a cover of Innocent Magazine. Last year Jen was the cover girl on the 2014 Playboy Swimsuit Calendar and a Maxim 'Hometown Hottie' semi-finalist.

Jen is a born and raised Texan girl from the small town of Fredericksburg, which explains her down to earth, southern charm. In her free time, she enjoys swimming, fishing, going to theme parks, working out, and going to live events. She is a mix of German, Irish, and Native American.

What does your fitness regimen consist of?  
My fitness regime consists of running three times a week, along with some cardio to work my core. I have a high metabolism, so it helps keep me pretty skinny haha.

What is the craziest thing a guy has ever done to get your attention? Did it work?  
The craziest thing a guy has ever done to get my attention would have to be writing, and singing a song for me. I guess I'm into that kinda stuff, because yes it did work.

What has been your proudest achievement so far?  
My proudest achievement thus far in my career would have to be my non-nude shoot with Playboy. I ended up landing the cover for the 2014 swimsuit calendar, and it has opened a lot of doors. I am beyond thankful for such an amazing experience, and for all of the support that I've had.

What is one thing most people don't know about you?  
A lot of people don't realize that I'm actually pretty quiet in person, I guess having a "Miss social" title kinda throws them off. But I would rather sit and listen to a conversation and get to know someone rather than share my own stories/talk about me.

What is the biggest challenge you've had to overcome?  
Learning to ignore all of the haters in this world has been a big challenge for me. I used to actually get upset when I read something negative about myself, but nowadays I just don't care. Everyone

# Wilke

has a right to their own opinion, even if it is a wrong one. All I can do is keep living my life, being happy, and feeling sorry for the low lives that have nothing better to do than focus on bringing others down.

Do you have any hidden talents?  
My hidden talent would have to be my flexibility; I can actually put both of my legs behind my head lol.

What is your single biggest motivation?  
My single, and biggest, motivation in life would have to be the immense amount of support that I get not only from my fans, but also from my family/loved ones. They all believe in me so much, and it drives me to keep pushing myself further and further. I love sharing my accomplishments with the world and giving people something to believe in.

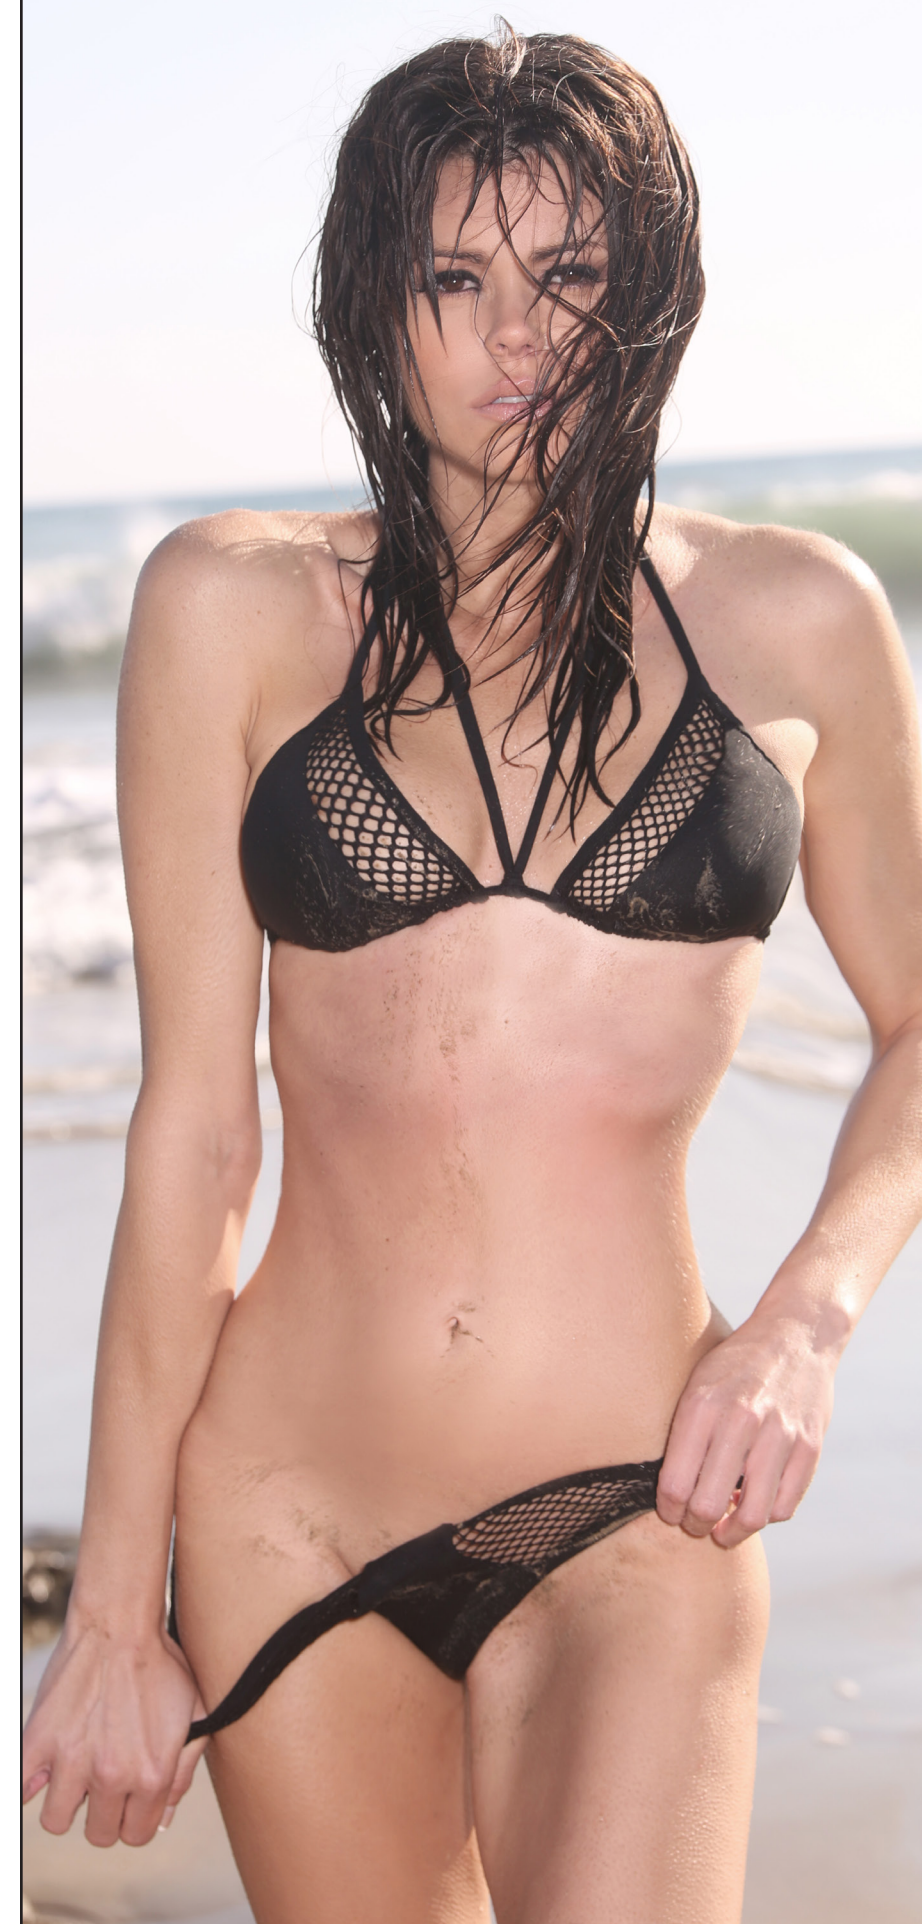

What is your favorite body part? Why?  
My favorite body part would have to be my legs. They are super long, smooth, and make any outfit look good.

Finish this sentence, "I love my life because..."  
I love my life because it's crazy, and a life that I never expected to have. I get to travel, and do shoots for a living. Isn't that something that people only dream about? I just feel so blessed, and beyond thankful for every day that I have on this earth.

If you weren't a model, what would you be doing?  
If I weren't a model I would a.) Be a beach bum, and cook fish that I caught for dinner over a fire every night. Or b.) A fashion designer with my own boutique. Decisions decisions...

What is your most prized possession?  
My most prized possession would have to be my cell phone lol, it's pretty much my life these days. I'm on it constantly so that I can keep up with everything, and also still chat it up with peeps that I care about. Another thing that I value is my hair straightener! Can't live without it :)

What's up next for Jen Wilke?  
What's up next for me? Same thing that we do every night pinky, try to take over the world. Oh you wanted a real answer? Well then... I plan to keep putting my name out there in hopes that someone with big opportunities comes my way. I'd love nothing more than to make it on the big screen like Audrey Hepburn, and become a classic icon. I also plan to keep landing magazines, 2015 better watch out because here Jen Wilke comes.

# China Chism

I have been modeling for several years now. I am always pushing myself to try new and creative ideas, so that my images are fresh and original. I like to change up my image and do pics that are sexy, classy and sometimes just plain crazy! I want to make it fun and exciting. Being a model is really fun, I get to experience so many different things. I love to travel and meet new people. I just recently went to Jamaica with photographer Kevin Brown and spent a few days there, taking some amazing photographs and having a great time! Being a model is really fun, I get to experience so many different things, but being a model is also a lot of hard work. Since I went to school for esthetics I am my own makeup artist! Always making sure I look good, which includes a lot of working out and trying to eat right. And on top of all that, I'm also a mother to a two year old little boy. He is my life and will always come first. I do not plan on stopping anytime soon, I have been in several publications, advertisements, billboards, catalogs, modeled different clothing lines and I and see no end in sight! I love it

# Henika Kmett

My name is Henika Kmett, I currently live in beautiful San Diego, California. I was born in Budapest, Hungary. I spent most of my childhood in Hungary, and I spent a few years of my childhood in Austria. A few years later, my parents moved brother and I to the United States to pursue their search of the "American Dream". Our new home of record became the state of Connecticut; I attended High School and graduated. A few months after graduation, I decided to enlist in the United States Navy. I dedicated eleven years of honorable service to the Navy. I

had the opportunity to serve my country, to travel the world and to meet and work with people from all over the globe. Once, I fulfilled my Navy contract, I decided to try something new with my life. Two years ago, I decided to give modeling a try, and during the two years, I realized that I had a love for artistic and fashion photography. I have had the privilege of working with an amazing, professional photographer by the name of Keith Foreman, he is the co-owner of Times Two Photography a portrait and wedding studio located in San Diego, CA. Keith is responsible for creatively capturing many of my poses in a beautiful way; including the pictures published in BIKINI and TEASE MAGAZINE. Working with creative photographers such as Keith Forman and my experience in the modeling world has given me the motivation to moving forward with what I love, creating beautiful, artistic photos. I am currently perusing my career studying Psychology, my dream is to one day become a couple's counselor.

# Elizabeth Kolton

I'm a real country girl born in the south, enjoying life to its fullest. Recently I have been traveling a lot to different states for modeling work. I have also been blessed to be published in the Divine Temptations Magazine (June Edition) so if you have not already picked one up please do. I enjoy modeling and creating beautiful images for others to enjoy. I like to think that the type of modeling I do is more of an art than what it may really seem. I feel blessed with a nice figure and the desire to display it artistically. Many people frown on me for doing the work I do but what they don't see is the beauty of the photo, they see

that I am nude or almost nude. As a little girl I have always wanted to be a model, it took me many years to get to where I am today with my career. I made it though and I enjoy the traveling and the fun adventure along the way. Of course the pay is pretty nice as well! I have met and worked with many photographers some good and some not so good. The selected few that were good have helped me get to where I am today and I truly thank all of them for helping me through my journey in life especially one in particular that I work with very often. Looking forward to turning more heads in upcoming issues.

I was born and raised in Yuma Arizona but have been everywhere from California to New York. Growing up I was considered to be the "ugly duckling." I was as thin as a toothpick with no physical assets, no sense of fashion, and no confidence. It wasn't til my sophomore year of high school.....literally. I've always dreamed of modeling and at the age of 18, Bayliner Boats Magazine reached out to me to be in one of their issues. From that point on, modeling became a passion of

mine. However, I am not your typical everyday model.

I am a true country girl at heart. I drive a pickup truck, bait a hook, load a gun, ride horses, and drink whiskey on the rocks. Blue jeans and tank tops are what I would consider as the perfect outfit. I currently own 2 horses that I share with a therapeutic riding facility for special needs children called "Saddles of Joy". I love volunteering not only my horses to be a part of this amazing

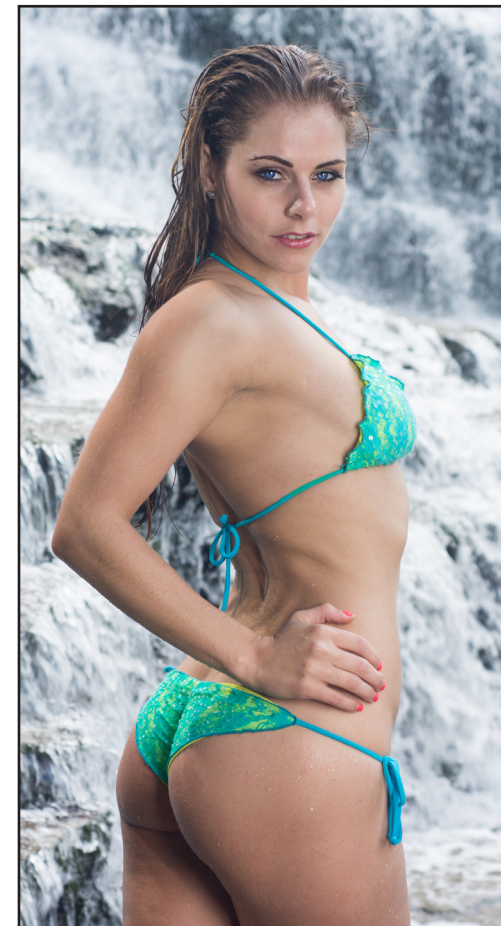

program, but also volunteering my time. Seeing the joy on these children's faces and experiencing first hand their improvements has inspired me to further my education in the medical field and hopefully one day be able to work at a children's hospital.

# Katie Kat

I'm an outgoing girl who loves to travel and try new things. My favourite spots in the world are tropical ones but that might just be because I am from Canada and I envy the heat! Any activity that gets my blood flowing and my adrenaline rushing sounds like fun to me; but that being said I still have not tried skydiving! I love modelling and have been blessed with the opportunity to do so with many amazing photographers and a few great hair and makeup professionals. My biggest opportunity for modelling so far came when I was invited to Punta Cana with

the International Bikini Model Search in May of 2015. I made so many amazing professional connections, a few possible life-long friends and had the time of my life. Since I have been back I have been able to work with talented local professionals in the modelling industry within the Toronto area and have been published a couple times as well! My guilty pleasure is food; I love to cook! I get bored easily and crave variety so I often try

new recipes and prefer to use fresh and delicious ingredients. I spend a few days a week volunteering in my community with three different organizations and I also hold a BSc. in Psychology. I cannot wait to see where my life takes me next!

My name is Brooklyn, I was born and raised in a small town outside Springfield Missouri. I have always been interested in pursuing a career in photography on both sides of the lens. I am an outgoing fun loving person who loves to meet new people. If I call you my friend, I mean it and I will do all I can to support and elevate you. I believe we should embrace our imperfections; I have struggled all my life with a birth defect called ptosis affecting my left eye. I have been bullied and teased all my life because of it and because of that for a long time made me feel insecure about my appearance. But, I have come to realize that it is not a burden, it is something unique and different and I choose to embrace it. I do still struggle at times with how I look, but I strive to overcome that and I am determined push myself to

become everything I can be despite that minor, superficial flaw.

I have been modeling for while now and working hard to develop my portfolio when I met Sean Tice, a great photographer and mentor. He has been so patient and kind with me, helping me to embrace my flaws and teach me how to express myself on film. I have learned so much from his experience and talent as a photographer and artist. I am always excited to see the images we create together.

I am single now, and concentrating on my career but I do have to admit I like to go out and have a good time when I meet the right kind of person. I am very independent and manage well on my own right now, but who knows, if the right guy comes along.... For now, I want to push myself to become a success in everything I do. Modeling and photography are my passion, I dream of having my own photography business one day and would love to travel the world in that capacity. I have always wanted to visit exotic locations to work- Australia, Bali, Hawaii, and Europe are on my list of places to explore and work. Keep an eye out for me, I am highly motivated, willing to learn and eager to expand my portfolio- remember my name, so much more to come!

First in for most I like to thank my Lord and Savior Jesus Christ for blessing me with my family and the perseverance to succeed in my vision. My name is Suzzette Vidaury, aka Suzzy, I was born in September 5, 1990, making me a Virgo and the only daughter of two sons. Born and raised in sunny San Diego, CA and currently attending San Diego State University for a Bachelors of Science in Civil Engineering. Yes, behind this beauty is a set of brains.

Since a kid I have been fascinated with science, facts and experiments. I enjoy learning about physics, and chemistry and the beauty in application of engineering. Fun fact, sunlight travels 8 seconds to reach earth and one of my favorite quotes

is from Albert Einstein, "If a cluttered desk is a sign of a cluttered mind, of what, then, is an empty desk a sign?". With that said, I keep myself busy with studies, and employment on campus and with the city of San Diego as a student engineer.

Besides school and work, I enjoy prayers, fitness, watching sports, listening to hip-hop music, solving Sudoku puzzles, swimming in the pool or at the beach and enjoy riding my bike with my daughter. My goals are to pursue civil development plans in undeveloped counties (love to see the world) and to continue modeling.

I have started modeling since November of 2014 and representing Coastal Beauties. I model for myself

and an audience to revive a vision of confidence and fashion. The hip-hop culture inspires my vision to pursue types of shoots. Swimwear, lingerie and urban/street wear are styles I have done and I am looking forward to shoot with a style of glamour, and some with a twist of a dark side.

The following pictures were taken by Samantha Grace Photography, make-up done by Marina Canas and accessory stylist by Jerica Robinson. I visioned myself in these poses in the bikini I picked out from Draya Michele's swimwear line called Mint-Swim. Lastly I like to thank Robert Boulanger himself for allowing me to be published in the July issue of BIKINI MAGAZINE.
