Tiffany is 24 from South Carolina. She grew up with her mom, in the heart of New York later finding love in the South. She spent most of her teenage years writing poetry and keeping to her self. Not being very outspoken Tiffany never thought she would find her solace in front of the camera.

Tiffany always loved taking pictures, as well as having her picture taken. At 22 she decided to really dive into the life that brought her joy. While working a full time job as a manager, Tiffany still finds time to travel around the southern

states to model at least twice a month. Mainly looking to get into print and commercial modeling Tiffany also finds great joy in figure modeling.

Tiffany is currently single, some may say she's too busy for a relationship but she reassures us that she'll make time for the one that's worth it. "I just want to be happy, and right now that's what I am. I would like someone to share my experiences with and to celebrate my accomplishments but that's what best friends are for right" -Tiffany Nangi

I'm Débora Batista , I live in Portugal . I've been a model for about 11 years .

My family has always supported me and encouraged me to do jobs as a model they support me 100%

I'm 30 years old , I studied postgraduate in management of spas in the university of the Algarve .

Achievements: I have a lot experience in the area of fashion "photographic model" . I have been cover of several magazine in my country in Portugal .

I would love to be able to launch myself into the "outside" foreign market. I have also participated in tv programs , video clips , advertisemensts . I have the goal of making television " reporter

de tv "or presenting some program always consiliating the fashion part .

My Hobbies are sports , reading , going to the beach and traveling .

I practice sports since i was 6 years old , i do cardio fitness to always keep fit , together with a balanced diet .

Debora Batista

I was born in Tennessee, raised up north then married young and moved back to the south. We have two grown children now each with a child of their own. I currently hold a bachelors degree in Information Technology, standing 6 credits from a Masters degree.

Achievements: My modeling career just began 2018, grew up my whole life believing I was ugly. MY tattos changed

that for me and eventually brought me into the modeling world, where I stay in humble, surreal, shock mode with each magazine I get published in, (currently 12 and counting in 5 months).

I married my soul mate at the young age of 17, in which we are still happily married today. Thanks to my families support I continue to strive in this field and enjoying every moment I can.

I am a bikini and fitness model. My passion is making beautiful art in front of the camera and just in general. I am from Charleston, South Carolina and was mainly raised in James Island and Folly Beach. I love the beach!

Achievements: I've done a good bit of modeling although bikini and glamour are my favorite. Modeling has been one of the best experiences of my life. It is just so natural to me and I love it. I also love meeting new people and inspiring women to be the best of the best. I am friendly and fierce! What a combination!

Techi Martin is a full time model currently living in Southern California. She was born into a life of travel. Both her parents were missionaries following a higher calling to serve mankind abroad. During one of their missions to the Philippines, Techi was born. Techi gets her namesake from the famous Filipina model, Techy Ayagbayani.

At age 3 she moved to Japan and began her modeling. At 7 years her parents were called to Argentina where she learned to speak Spanish. Turning 10 Techi's family moved to Brazil. She recalls, "I loved the Brazilian spirit and the way they expressed themselves, not holding back"

At 13 years old they moved to Morelia Michoacan, Mexico, But the traveling does not stop there.

Once she turned 17, Techi felt a calling of her own. She joined the US Army, working as a secretary, stationed at Fort Riley, KS. She was deployed to Iraq, for Operation Iraqi freedom 3. After fulfilling her service with the Army, Techi decided to take some much-needed time off. She traveled to Maui, Hawaii with her cousin.

In Hawaii she learned how to diet and exercise, grow vegetables and take care of chickens. After spending 3 years in Hawaii and traveling to Australia, Ireland, Italy, Spain, and Costa Rica it was time to go home. Techi and her cousin went home to California to work and save up for traveling expenses. "We decided to hitchhike from Costa Rica to Baja California, to save money"

Techi remembers 7 days of traveling in semi-trucks, and 7 nights of roughing it. "We nearly crossed a border line each day of our trip." says Techi.

"I remember crossing the border into the states, seeing such a difference of how clean and organized it was with no trash on the road".

At the age of 25 Techi decided to become a missionary herself. She served in Ensenada, Baja California. From Ensenada she moved to Guadalajara, Mexico and then Reynosa, Mexico, and traveled to Canada. Always being self-supported by selling Christian materials, such as scrolls, bibles, ect.

After spending time as a missionary and a traveling model, Techi's next goal was to become a mother, "I've always wanted 10 kids of my own growing up."

"It took me forever to find the right partner, and I had to kiss a lot of frogs to find my prince. It's kind of like modeling, I had to shoot with a lot of photographers to find the right ones for me, who would capture my images best."

Techi is now a mother of 2, "My kids have taught me patience and how the best things in life take time, especially the ones that are worth it. Having a daughter has changed my life and made me work harder so I can have a good career and be a good example to show her that anything is possible. If you believe it, you can achieve it. I still have a long way to get to the top. But like a journey with a thousand miles, it begins with a single step. I walk with faith. I work hard. I am determined."

BROOKE ROBIN

I'm from Upper peninsula of Michigan. I'm a very adventurous,compassionate and open minded person. I enjoy everything outdoors! Kayaking, hiking, camping you name it. Family is very important too me. I like traveling and experiencing new things. My favorite part of modeling is being able to express all the different sides to my personality. When I'm not modeling you can find me in the dental office as a dental assistant. I find the most enjoyment out of the simple things in life.

I was born in the Netherlands, my father was Italian and my mother is dutch, I also have a lovely brother and a beautiful sister. My father was a business man and we travel all the time between Italy and the Netherlands. I'm fully bilingual. I has an extremely happy childhood. At school I was always the tallest in the classroom and I have often been asked: 'Are you a Model?/ Do you want to become a Model? At that moment I was a little shy and for any reason not really interested into modelling.

Achievements: Who is the greatest love of my life? I haven't met the love of my life yet but it

could be in the future.

When I opent my Facebook account I start to have request from photographers to be their model for photo shootings. After a while I start to consider modelling as a new way in life and I want to explore it at the maximum.

As an passionate sportive women I love sports photoshoots. I recently completed my certification in Scuba diving. I am also planning to furtherly complete a free diving course and to combine the two disciplines. The idea is to start modelling underwater and to develop this speciality.

I sincerely love walking on

the catwalk, wearing beautiful clothes in addition of the glamour, traveling, meeting cultures and new people.

I learned a lot thanks of my participation during the international fashion weeks in Amsterdam, Istanbul, Newyork and London. I am also looking forward to the Fashion Weeks of Milan and Paris.

My strong points are my positive attitude, team spirit and perseverance.

As a tip, folow my steps: be happy with who you are, take good care of yourself by doing sports, drinking lots of water and green tea and, of course, getting enough sleep!
